

Amendments to the Claims

The following listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1-20. (Cancelled)

21. (Currently amended) A substance container comprising: a body including a first side panel, a second side panel located opposite from the first side panel, a front panel and a rear panel extending between the first side panel and the second side panel, wherein the front panel includes an aperture for accommodating a dispensing assembly, wherein the first side panel, the second side panel, and the rear panel of an assembled body form a cavity fully accessible from ~~an outside of the body without disassembling the body~~ opening in the front panel, wherein the opening of the cavity is located below the aperture when the body is positioned upright, and wherein the cavity is capable of accommodating at least a portion of a cup.

22. (Previously presented) The substance container of claim 21 wherein at least a portion of the first side panel and the second side panel includes a double panel thickness.

23. (Previously presented) The substance container of claim 21 further including a support positioned between the first side panel and the second side panel.

24. (Previously presented) The substance container of claim 23 wherein the support is capable of buttressing a bag above the cavity.

25. (Previously presented) The substance container of claim 21 wherein the body comprises a corrugated packaging.

26. (Previously presented) The substance container of claim 21 wherein the corrugated packaging comprises corrugated cardboard.

27. (Previously presented) The substance container of claim 21 wherein the cavity is configured to contain beverage cups.

28. (Previously presented) The substance container of claim 21 further including a bottom panel extending between the first side panel, the second side panel and the rear panel to form part of the cavity.

29. (Currently amended) A container for containing substances, the container comprising: a body including a first side panel, a second side panel, a front panel, a rear panel, and a top panel, wherein the top panel includes a top surface and a recessed surface wherein a first aperture is located in the front panel and accommodates a dispensing assembly; a filling assembly located at the recessed portion of the top panel, wherein the filling assembly does not protrude past a plane represented by the top surface of the top panel; and wherein the first side panel, the second side panel, and the rear panel form a cavity accessible from the front side panel without disassembling the body, wherein an opening of the cavity is located below the first aperture when the body is positioned upright, and wherein the cavity can accommodate at least a portion of a cup.

30. (Canceled)

31. (Previously presented) The container of claim 30 further including a dispensing assembly positionable with the first aperture.

32. (Previously presented) The container of claim 31 wherein the dispensing assembly comprises a pump.

33. (Canceled)

Application no. 10/804,466
Amendment dated: September 7, 2005
Reply to office action dated: June 7, 2005

34. (Canceled)

35. (Previously presented) The container of claim 29 wherein the body comprises a corrugated packaging.

36. (Previously presented) The container of claim 34 wherein the corrugated packaging comprises corrugated cardboard.
